## About ECCO

### Mission Statement

ECCO will strive for an optimisation of care for patients with IBD in all aspects.

As part of this mission ECCO will adopt and further all efforts that lead to an improvement of the use of current therapies and procedures. Main aims include the development of guidelines with highest possible methodology and content quality and joint efforts to define better and more valid outcome parameters for the therapy of IBD.

Further aspects of the mission include the promotion of specialist, postgraduate education in IBD and the promotion of scientific projects in IBD. Such promotion can include intellectual input, funding and joint training using an ECCO defined curriculum. ECCO's visibility will be always as an organisation and not as the individuals making up ECCO. With all its activities the name of ECCO will stand in the world of gastroenterology for the highest possible level in quality and full impartiality in the results.

# E-QUALITY

## ECCO Quality of Care Project

### **Project Framework:**

- Intended to ultimately improve the quality of care of patients living with IBD
- Building on the ECCO Position Statement on Quality of Care Standards in IBD and the UR-CARE database
- 2023 Survey: focus on Process and Outcomes
- Second phase: Fill the identified gaps with educational tools and/or activities
- Quality standards identified in three main domains: Structure, Process and Outcomes

**Gratefully acknowledging the unrestricted grant support by  
Bristol Myers Squibb**

# Scientific Programme

## *"Crossing borders in IBD"*

The Scientific Programme of the 19<sup>th</sup> Congress of ECCO provides attendees the unique opportunity to learn from the world's leading specialists in the field of Inflammatory Bowel Diseases. It is structured around basic science, translational medicine and clinical sessions. Additionally, it includes oral presentations of the best abstracts of the Congress. The sessions focus on clinical practice founded on science with practical take home messages. Check out the full programme by scanning the QR code.

# UR-CARE

The IBD Database for your patients records and your research studies

## What to expect:

- Comprehensive registry capturing demographics, environmental factors, clinical characteristics, examinations and therapeutic interventions in IBD
- Ground-breaking cross-project cooperation
- Retro- & prospective data collection and evaluation
- Autonomous data management offered to study groups
- Precise data ownership rules

## Highlights

- Quality of care assessment
- High mobility and continuity of care for patients
- Different options of printable patient reports
- Sophisticated, user friendly data export
- Real-life test version
- Core paediatric and surgical variables available
- Validation study: Published in JCC

## Friday, February 23, 2024

Preliminary programme overview  
(as of September, 2023)

**07:15 - 08:15 Industry sponsored satellite symposia**

**08:30 - 10:30 Scientific Session 4: Balancing benefits and risks in 2024 throughout life**

- JAK inhibitors: are they all the same?
- Clinical perspective - the family planning patient
- Clinical perspective - the frail patient
- Oral presentations

**11:00 - 12:30 Scientific Session 5: Visualising IBD - in collaboration with ESGE**

- Endoscopy - visualisation of disease activity, modern disease characterisation
- Novel forms of IBD - related dysplasia
- AI - entering clinical practise in IBD
- Oral presentations

**12:40 - 13:40 Guided Poster Session**

**12:45 - 13:25 Lunchtime satellite symposia**

**13:30 - 15:00 Scientific Session 6: Revisiting Clinical trials in IBD**

- How well are patients reflected by clinical trials?
- Matching clinical trials with real world data studies
- Lack of surgical trials - bridging the gap
- Oral presentations

**EITHER:**

**15:40 - 16:25 Scientific Session 7: Gut brain axis - chicken or egg?**

- Evidence for gut brain axis in IBD I: Scientific perspective
- Evidence for gut brain axis in IBD II: Clinical perspective
- Oral presentations

**16:25 - 17:25 Scientific Session 8: IBD Horizons**

- Oral presentations

**OR:**

**15:40 - 17:20 Scientific Session 9: Basic Science: Metabolism meets intestinal inflammation**

- Metabolism - influence on gut homeostasis
- Mitochondria function key for barrier function
- Lipodystrophy as metabolic model - role in intestinal inflammation
- Oral presentations

**17:40 - 18:40 Digital Oral Presentations Sessions 6-10**

**18:55 - 19:55 Industry sponsored satellite symposia**

# Why submit your research to JCC?

## Prompt and professional peer review

JCC publishes research that has undergone rigorous peer review, including an initial screening by one of the Editors and recommendations by independent reviewers. The average time from submission to first decision is two weeks.

### **Fast publication speeds**

- Fast Advance Access publication of the author manuscript version within one week of acceptance making your work discoverable faster

### **High Impact Factor**

- With its 2022 Impact Factor, which now stands at 8.0, JCC ranks highly among gastroenterology and hepatology journals

### **Wide dissemination**

- Publishing in JCC will ensure that your article will be seen, read and cited by your research community

## Saturday, February 24, 2024

Preliminary programme overview  
(as of September, 2023)

### 08:30 - 10:20 Scientific Session 10: Nutritional therapy - from paediatric to adult care

- Placing nutritional intervention in the IBD treatment algorithm
- Is there a lifestyle triggering IBD - time for a challenge?
- GD Guidelines
- Oral presentations

### 10:50 - 12:20 Scientific Session 11: Clinical challenges/cases

- Cancer case
- Drug induced colitis
- Surgery during pregnancy
- Oral presentations

### 12:20 - 13:30 Scientific Session 12: ECCO Lecture

- ECCO Lecture
- Awards and closing remarks
- The ECCO Film
