

Dear ECCO Members,

Greetings to you and your families! I am sure you are all looking forward to the holidays and spending some quality time with all your loved ones.

Here is a recap to the changes made to the e-Learning platform this year: we have added new and exciting content for you to browse through, including the [updated the e-Library](#) with all the latest Abstracts and Presentations from the ECCO'23 Congress, and to check out a list of specially curated list recorded [Educational Courses](#).

Additionally, we introduced brand new content on the e-Learning platform:

- The [ECCO Nurse IBD Curriculum](#) aims to create a structured e-Learning education programme, specifically tailored towards IBD Nurses. The ECCO Nurses are working on creating new content to close the gaps in the literature and you will be able to access them on the e-Learning platform soon!
- The [IBD Communication Toolbox](#) is a series of podcasts, recorded by gastroenterologists, where you can hear how IBD experts deal with questions that are commonly asked by patients. Each podcast focusses on tips and tricks in discussing important issues in IBD with patients.
- The [Optical Diagnosis Training to Improve Dysplasia Characterisation in IBD](#) (OPTIC-IBD) is an advanced training programme in endoscopy developed by Professor Marietta Iacucci and her team. This programme aims to improve your ability to endoscopically characterise colonic dysplasia and polyps in IBD patients.

Over the course of the next few months, **Part II of the Advanced Training Programme in Endoscopy** will be released, alongside more Talking Heads, Educational Audio Podcasts, Skills Videos, and e-Courses.

This month, we also published a new Talking Heads video and e-Course. Check them out below!

The [e-CCO Learning Platform](#) currently offers 30+ Educational audio podcasts, 30+ e-Courses, 60+ Talking Heads, and 15+ Skills Videos. We also have new and stimulating content due to be released very soon, such as e-Courses based on the IBD and Malignancies Guidelines and GRADE CD Guidelines.

Don't forget to **register for the ECCO'24 Congress in Stockholm** if you haven't already done so! You can watch the Congress Teaser [here](#).

Warm wishes for a joyous holiday season!

Yours truly,

Pascal Juillerat
