

Dear ECCO Members,

I am delighted to share some exciting updates regarding our e-Learning platform. As we embrace the vibrant seasons of spring and summer, I encourage you to take advantage of the latest content we have recently added to the [e-Library](#), including the latest Abstracts and Presentations from the ECCO'24 Congress.

As our ECCO community expands, we have produced a short e-Learning Tour video to showcase the key features of the ECCO e-Learning Platform. You can watch the video by clicking on the image below.

I am pleased to announce the introduction of new and updated content on our e-Learning platform:

- The Advanced Training Programmes in **Endoscopic Scoring Systems for Crohn's Disease and Ulcerative Colitis** aim to provide a comprehensive, yet simplified overview of the main endoscopic scoring systems for grading CD and UC activity in clinical practice. There are two main sections: Theory; where you gain insights into the most common and recently developed scoring systems, and Practice; where you can test your ability to grade disease activity through clinical cases, interactive videos, and questions.
- The [ECCO e-Guide](#) has recently been updated, so make sure to check it out! In case this is the first time you hear about the e-Guide, it is a freely-accessible online platform for Healthcare Professionals in IBD, which aims to visualise the ECCO Guidelines as algorithms based primarily on the main UC and CD Guidelines of ECCO.

We also have the following new content:

TALKING HEADS

Britta Siegmund
ECCO President

Laurent Peyrin-Biroulet
ECCO Past-President

Bincy Abraham
Crohn's & Colitis Foundation

Pascal Juillerat
e-Learning Ambassador

Talking Heads
CHALLENGES OF MAINTAINING ADEQUATE
GROWTH OF CHILDREN AND YOUNG ADULTS AND
