## ECCO Multi-Year Research Grant Fact Sheet

---

The European Crohn's and Colitis Organisation (ECCO) offers up to two Multi-Year Research Grants with Pfizer's support to encourage and support innovative basic and/or clinical scientific research in the area of Inflammatory Bowel Diseases (IBD) across Europe. The selected topics for these ECCO Multi-Year Research Grants are:

- **Evaluation of novel modalities of disease monitoring in patients treated with JAK inhibitors (e.g. ultrasound/RMN/fibrosis evaluation)**
- **Early disease control via JAK inhibition**

Up to two ECCO Multi-Year Research Grant may be awarded in 2021.

In order to be eligible:

1. The applicants must submit a new and original research project that has not yet been launched.
2. The project group must consist of
  - at least 2 participating institutions from different countries
  - principal investigators from each institute who are responsible for the implementation of this project on behalf of their participating institutions
  - a project coordinator (this may or may not be one of the principal investigators), who has been identified by the participating institutions for coordinating the overall project.
3. All project group applicants (i.e. project coordinator and principal investigators of all participating institutions) need to be ECCO Members at the time of application.
4. The majority of the ECCO Multi-Year Research Grant applicants must be from an ECCO Country Member; all applications that include non-European participating institutions must justify the selection of these institutions in the letter of intent.

The project coordinator, however, must reside in an ECCO Member Country.

5. It is essential to illustrate the overall impact of the project for the IBD Community.
6. The ECCO Multi-Year Research Grants aim to enhance visionary, collaborative, and interdisciplinary scientific research in IBD centres.
7. Candidate can apply for one specific ECCO Research Award only. Several applications with the same topic for different ECCO Research Awards will not be taken into account for review.

## Terms of submission

1. A total amount of **EUR 200.000** will be awarded per ECCO Multi-Year Research Project. The ECCO Multi-Year Research Grant Prizes are intended for research costs incurred, most notably salary support; equipment; research consumables. It is not intended for institutional overheads. No portion of the prize may be used to purchase capital equipment such as computers, iPhones, tablets, machinery, camera equipment, sensors, etc. When only two institutes are participating, the proportion of the cost distribution between institutions may not exceed 60:40.

If the ECCO Multi-Year Research Grant candidates succeed in receiving additional funding for the project, this is likely to be regarded as an "add-on" and not a conflict with ECCO, although ECCO will expect to be informed through the project coordinator.

2. The duration of the Grant is 24 months.
3. Members of ECCO Governing Board and SciCom are excluded from applying.
4. Each project coordinator and the corresponding lead institution may only submit one proposal by the official submission date.
5. The reviewing process will be carried out in two stages.
  - In the first phase, all applicants must submit a "letter of intent" (max. 5 pages; Font: Verdana; Size: 11) that should contain the following:
    - Project title
    - Project outline and intent
    - Research objectives
    - The connection to and impact on the IBD Community
    - The innovative quality
    - Budget (incl. budget split per category and further explanations, e.g. salary, equipment, consumables, travel and meeting costs, other expenses; institutional overheads are not accepted)
    - Endorsement signatures of all participating institutes
  - In the second phase, the highest ranked applicants will be invited to submit a full proposal using the "ECCO Multi-Year Research Grant Technical Annex", not exceeding 12 pages). The proposal should be written in Word format (Font: Verdana; Size: 11, Line spacing: single) and should contain the following headings:
    - Project title
    - Name and full address of the participating institutions
    - Name, full address, and ECCO Membership ID of the project coordinator
    - Name, full address, and ECCO Membership ID numbers of the principal investigators
    - Summary of the proposal (max. 300 words)
    - Introduction (max. 900 words)
    - Objectives (max. 600 words)
      - Overall aim of the research project

- Grant objectives; achievable within the 24 month timeframe and with the funds and support provided by ECCO and Pfizer
- Methodology and Working plan → including timeline (max. 1350 words)
- Chronogram → mandatory milestones and specific deliverables of the project
- Significance (→ pioneering quality) and impact (max. 225 words)
- Background of the group (max. 900 words)
- Detailed budget (budget split per category and subdivided to participating institutes; transparent cost calculation)

As well as the following documents:

- CVs of the ECCO Multi-Year Research Grant applicants (project coordinator and principal investigators)
- Letters of commitment of all participating institutions
- IRB (clinical/experimental) approval of the project

6. The annual deadline for submission for an ECCO Multi-Year Research Grant is **July 31** (1<sup>st</sup> round) and **September 25** (2<sup>nd</sup> round).
7. Evaluation of applications is made according to seven criteria (see review process, below) by European IBD specialists. Applications will be discussed by ECCO's Scientific Committee and applicants will be informed of their application outcome in **November**.
8. The handover of the Award takes place at the ECCO Congress and successful applicants are expected to be present.
9. Payment of the prize money is contingent upon the ECCO Multi-Year Research Grant Agreement signed between ECCO and the participating institutions. The prize per ECCO Multi-Year Research Grant will be split into one pre-financing payment of EUR 100.000 and one interim payment of EUR 100.000.
10. The project coordinator is asked to write a 500-word synopsis of the project for ECCO News for submission within the first half of the project term.
11. An interim report of the project progress must be submitted to ECCO within 12 months of project start.
12. A final report is due within 24 months of project start, with a possible no-cost-extension of the deadline by maximum 12 months upon written request.
13. The Recipient and Lead Institution is expected to submit the results of the project in the form of an abstract at the annual Congress of ECCO following the completion of the award objectives.
14. The Awardees are required to inform ECCO's Scientific Committee of all abstracts and publications of the project.
15. When presenting or publishing results of the project, ECCO shall be acknowledged on all printed matter. Pfizer should be disclosed as contributing to the funding (no logo, no use of Pfizer in the project's title). Please contact the ECCO Office at [ecco@ecco-ibd.eu](mailto:ecco@ecco-ibd.eu) to request the ECCO logo for slide presentations.
16. ECCO encourages Awardees to offer the paper to JCC for publication.

17. Applications should be sent to the head of ECCO's Scientific Committee at the following address:\*

**ELECTRONIC SUBMISSION ONLY**

ECCO Office  
Att. Chair of SciCom  
Ungargasse 6/13  
1030 Vienna, Austria  
[ecco@ecco-ibd.eu](mailto:ecco@ecco-ibd.eu)

**\*Data processing consent and retention:**

By sending an application by email to [ecco@ecco-ibd.eu](mailto:ecco@ecco-ibd.eu) in reply to this open call, you agree to the data processing for the above described project:

ECCO Office stores applicants' personal data of this application for the project timeframe. ECCO Office will delete data securely after the end of this project.

In addition, the scientific review process generates a review result for the applicants which will be stored with your data in line with the requirements of scientific review archiving.

You have the right to object at any time at [ecco@ecco-ibd.eu](mailto:ecco@ecco-ibd.eu).

#### Review Process

1. All projects will be reviewed and scored by the members of ECCO Scientific Committee with external reviews requested and expected, based on the following criteria:
  - o Originality and innovative nature of the proposal
  - o Methodology
  - o Feasibility
  - o International scientific level of the research team
  - o CVs
  - o Importance of the project to the field of IBD
  - o Long-term impact of the project (interdisciplinary aspects, exchange, critical-mass, and (degree of) mobilization)
2. The ECCO Scientific Committee makes the selection and seeks approval from the ECCO Governing Board.

#### Scoring System

The following procedure for the scoring system for ECCO Multi-Year Research Grants will apply:

1. *Review by ECCO's Scientific Committee Members & external reviewers:* Each ECCO Multi-Year Research Grant application will be reviewed by 2 members of ECCO's Scientific Committee and minimum 2 external reviewers to guarantee transparency. They will score their assigned applications according to the seven evaluation criteria and comment on each application.
2. *Ranking:* Applications are ranked according to their overall average scores.
3. *Final approval:* by the Governing Board of ECCO
4. *Acceptance/rejection letters:* Candidates will be informed of their application outcome by ECCO

## Reviewers

Reviews for the ECCO Multi-Year Research Grants will be requested according to individual expertise and selected from the following candidates:

- ECCO Officers
- Former speakers at the ECCO Congress
- Acknowledged experts
- Successful candidates of Fellowships/Grants
