

ECCO CONFER Cases Round 9: Call for proposal of rare cases

Dear ECCO Members,

ECCO COLlaborative Network For Exceptionally Rare Case Reports (CONFER) is an initiative to identify, assemble and report together rare IBD cases of clinical relevance, which are otherwise seldom reported. By joining forces of the many members and supporters of ECCO, a joint report of all similar such rare cases can result in a large case series that will advance our knowledge about these uncommon patients.

ECCO CONFER is now launching its **nineth round**.

We have defined **5 main themes of interest** for proposed cases:

- Unusual clinical situations facing diagnostic or therapeutic gaps of knowledge
- Rare infections
- Uncommon drug beneficial effects or side-effects
- Rare IBD manifestations
- Infrequent disease associations (neoplastic, infectious, etc.)
