# **Portfolio ECCO IBD Nurse Education Programme France, 2024-2025**

## **Sponsorship Prospectus**

**Dear Corporate Members,**

**ECCO would like to invite you to take part in the 3<sup>rd</sup> cycle of the ECCO IBD Nurse Education Programme, which will be happening in 2024/2025!**

For several years ECCO has been exploring ways to increase nurse education opportunities throughout Europe. ECCO believes it is essential to develop a comprehensive, practical education programme for IBD Nurses, which would aim to increase the number and enhance their role. Various discussions led by and with ECCO nurses confirmed this.

In addition to the three nursing Educational Activities (N-ECCO School, N-ECCO Network Meeting, N-ECCO Research Forum) that are offered at the ECCO Congress, ECCO is continuing with the third cycle of the **ECCO IBD Nurse Education Programme, which will take place in France in 2024/2025**. This six-month programme will consist of:

Summer – September 2024	Programme pre-reading using literature and e-Learning materials
Nov 15-16, 2024	<b>1<sup>st</sup> Face-to-Face Meeting</b>
Nov 2024 - April 2025	6 months directed learning
Feb 2025 - April 2025	One-week visit to an established IBD nursing centre
June 13-14, 2025	<b>2<sup>nd</sup> Face-to-Face Meeting</b>
	6 months of distance learning using literature and e-Learning materials

This programme aims to reach all European nurses, taking place in one country per course cycle. A maximum number of 25 enthusiastic French nurses are accepted in this cycle of the programme to ensure interactivity and foster closer exchange of ideas.

The education will be provided in the local language of each country, in order to overcome the English language barrier. The focus of this course will be on the education for nurses and not on any specific degree or certification.

Each participant will have two mentors to guide them through the programme and assist with any language concerns. One will be an established IBD Nurse either from the host country or another ECCO Member Country. The second will be a clinician in the nurse's own hospital.

We welcome industry partners to take a step closer to patient needs by interacting with IBD Nurses through sponsorship of this programme.

In addition to this informative letter please find more information on our website about the programme modules of the upcoming ECCO IBD Nurse Education Programme in 2024/2025 [www.ecco-ibd.eu](http://www.ecco-ibd.eu). If you need any further information don't hesitate to contact the ECCO Office ([ecco@ecco-ibd.eu](mailto:ecco@ecco-ibd.eu)).

Thank you very much for your support!

Kind regards,

Gionata Fiorino, ECCO Education Officer
