Project Framework:

- Building on the ECCO Position Statement on Quality of Care Standards in IBD and the UR-CARE database
- Intended to ultimately improve the quality of care of patients living with IBD
- Quality standards identified in three main domains: Structure, Process and Outcomes
- Be part of [IBD Centre Finder](#) powered by the E-QUALITY Project.

Complete the surveys and get one-time one year free ECCO Membership.

Scientific Programme

"Causes of IBD"

The Scientific Programme of the 22nd Congress of ECCO provides attendees a high quality opportunity to learn from the world's leading specialists in the field of Inflammatory Bowel Diseases. It is structured around basic science, translational medicine and clinical sessions. The sessions focus on clinical practice founded on science with practical take home messages. Additionally, the programme features oral presentations of the top selected Congress abstracts.

Thursday, March 4, 2027 (as of Oct 2026)
